About Conklin Office Furniture

Conklin is one of the nation's pioneers in office furniture recycling and refurbishing. Since 1981, we have made it our mission to offer facility managers and business owners a way to upsize, downsize, off-load or load up when it comes to premium used office furniture. Conklin has a 15 million dollar used office furniture inventory of contract lines that are ready to install. We cut time and costs but never quality to bring savings to our value-minded and environmentally conscious customers. With a continued focus on integrating product and practices that leave a positive impact on the environment, Conklin is a leader in sustainable furniture solutions.
