About Charter School Support Services, Inc.

Charter School Support Services is a national nonprofit formed to help local board and school leaders provide children with a safe and well equipped facility ensuring the best use of scarce resources. Our services include charter development, school opening, facility planning and financing, as well as furniture, equipment and technology acquisition and financing. CSSS also provides operations support for existing schools including facility expansion, on-site facility management, AHERA compliance, E-Rate grant management, business plan development, management services for charter school turnarounds and restructuring, project management and procurement of a wide range goods and services.
